

AURAIQ

Aura Starter Pack IQ

SMART HOME SOLUTIONS

Contents

The entry level package supporting 2-bed apartment, providing the most basic features. The following pages contain the devices, as well as what do they control.

Central Hub	page 03	Smoke Detector	page 09
Touchscreen Panel Hub	page 04	Water Valve Controller	page 10
Lock with Keypad	page 05	Water Leak Sensor	page 11
Light Switch (Wall or built-in)	page 06	Door & Window Sensor	page 12
Wall Outlet	page 07	Aura Starter Pack IQ	page 13
Roller Shutter Controller	page 08	Addons	page 14

Central Hub

Connection

The heart of your smart home. The hub connects and manages all devices, ensuring smooth operation and reliable performance.

Touchscreen Panel Hub

Control

A central control screen for your home. Easily manage lighting, climate, cameras, and more from one place, with a clear and modern interface.

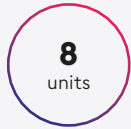

Lock with KeyPad

Safety

A modern and secure door lock with keypad access. Simple to use, stylish in design, and ideal for safe, keyless entry.

Light Switch (Wall or Built-in)

Comfort

Control your lights conveniently with stylish wall switches or discreet built-in modules hidden behind your existing switches.

- Wall switches: keep everything visible and modern.
- Built-in controllers: perfect if you want to keep your current style.

(Note: built-in modules provide on/off control for lighting, but not full dimming or temperature adjustment.)

Wall Outlet

Comfort

A smart power outlet that lets you control devices remotely and monitor energy use, while blending seamlessly into your home.

3
units

Roller Shutter Controller

Safety & Comfort

Upgrade your existing motorised shutters by connecting them to the system with our hidden module. For extra convenience, we also provide a wall switch to control them manually.

1
unit

Smoke Detector

Safety

A reliable smoke alarm that warns you with sound and phone notifications, helping to keep your home safe.

1
unit

Water Valve Detector

Safety

Automatically shuts off your water or gas supply in case of leaks, giving you safety and peace of mind at home or away.

Water Leak Sensor

Safety

Detects leaks and flooding early, sending an alert to your phone and preventing costly damage.

Door & Window Sensor

Safety & Comfort

Monitors doors and windows, notifying you if they're opened unexpectedly
– ideal for both security and comfort.
